## Institution's Innovation Council

### IDEATHON'22 Stage 1

Institution Innovation Council, MSIT, in collaboration with MHRD's Innovation Cell, organized its annual event on **13.02.22** online, **Ideathon'22**. It aimed to encourage students to participate and provide their innovative and unique ideas that would be sustainable and focus on social causes. The themes for the event were Healthcare & Biomedical devices, Agriculture & Rural Development, Smart Vehicles/Electric vehicle motor and battery technology, Food Processing, Robotics and Drones, Waste management, Clean & Potable water, Renewable and Affordable Energy, IoT-based technologies (e.g., Security & Surveillance systems etc.), ICT, cyber-physical systems, BlockChain. Cognitive computing, Cloud computing, And **Many More!**

Judges for the event were Dr. Sudesh Pahal (Convener, IIC) and Dr. Poonam Dahiya (IPR Coordinator, IIC). Other members in the event were Tanisha Beri and Tanvi, Overall Coordinators, Nitesh Gupta, Content Coordinator, Prerna Aneja, Publicity Coordinator, Tanay Aggarwal and Sukriti Sinha, Activity Coordinator and student members of different departments.

Dr. Sudesh Pahal, Convener of IIC welcomed all the teams who registered to participate in Ideathon 2022. Our young innovators beautifully presented their ideas via oral and PowerPoint presentations. Each of the ideas was unique and interesting. Few ideas that were discussed are Potenza : Private Cloud Storage Solution, Know Your Travel : one stop traveling solution, Soil Nutrient Predictor. Each idea was judged based on the uniqueness of the Idea, its operational Feasibility, technical Feasibility, impact/ potential, business model, and presentation. All the teams were assigned mentors for proper guidance in the further stages of Ideathon. In the end, a vote of thanks was extended to all judges for their valuable time and all participants for their enthusiasm.

## What's The Need?

The time we spend on our mobile devices has continued to grow in the last few years and whenever we're traveling, the mobile phone automatically becomes our tour guide, travel agency, best restaurant locator, maps, and more.

According to a Google Travel study, 74% of travelers plan their trips on the Internet. When it comes to planning trip activities, 85 percent of leisure travelers decide on activities only after arriving at their destination, where they are most likely to use their mobile devices to do so.
