MAHARAJA SURAJMAL INSTITUTE OF TECHNOLOGY

Department of Information Technology

Duration- 1 Hour   **13th December 2022**

The department of Information Technology organized a workshop on "Introduction to Machine Learning" on 13th December 2022 in seminar hall 406.

Mr. Atul Dhingra, Engineering Manager at Standard AI, USA, was the workshop's special guest speaker. The specialist has worked on cutting-edge Machine Learning and Deep Learning algorithms to solve challenging problems in Autonomous cars and Biometrics for more than ten years. He has been instrumental in the development of sophisticated machine learning manufacturing systems on a big scale.

Mr. Atul provided the knowledge on machine learning (ML), the significance of ML, its future potential, the value of data in ML, and some explanations of neural networks. He also showed us how to build a machine learning model and how to get established in the industry.

Numerous student queries were finally answered. There were around 130 students in attendance, and the workshop was interesting and useful.
