

## MAHARAJA SURAJMAL INSTITUTE OF TECHNOLOGY

### INSTITUTION INNOVATION COUNCIL

Dated: 28 February, 2024

#### National Science Day Celebration

During the event organized by IIC MSIT on National Science Day, students were provided with insightful perspectives on the significance of this commemorative occasion.

Through engaging discussions and informative sessions, they gained a deeper understanding of the historical context and the scientific achievements celebrated on this day, particularly the discovery of the Raman Effect by Sir C.V. Raman. Emphasis was placed on the role of scientific inquiry in driving progress and innovation, inspiring students to cultivate a passion for scientific exploration and critical thinking.

Moreover, they were encouraged to recognize the societal impact of scientific advancements and to actively contribute to the scientific community. By fostering an appreciation for the contributions of science to society, students were empowered to become catalysts for change and innovation in their respective fields.
