

# Report: Animal Care Centre

## Visit

In order to rejuvenate that lost love and care, Prakriti - the Humanitarian and Environmental Society of MSIT organised a visit to *Sanjay Gandhi Animal Care Center* on the occasion of *World Animal Day*. This day recognizes that each animal is a unique sentient and is eligible to receive social justice.

This visit took place on **October 15 2019**, i.e. Tuesday in which approximately **40 team members** visited the centre where nutritious food items like milk and fruits were provided to the animals present there. There were different and organised shelters for all the species of animals present there. Proper vaccination and OPD's were allocated and every staff member managed the animals efficiently. Many team members took the dogs out for a walk too.

Just the way every human being is in the need of constant love and affection, similarly animals deserve that tincture of love and affection in human's touch. Due to the modern man's selfish thinking, we have completely forgotten that we share these beautiful natural surroundings with other living creatures too.

Altogether, it was a privileged visit where the team was actually able to feel the pain of the animals and understand that they just need our love, care and support. We need to understand that it just takes small steps and efforts from our side to make this planet beautiful for animals too.

Until one has loved an animal, a part of one's soul remains unawakened.

A total of 40 team members of Prakriti took part in the said visit, details of which can be found in the lists attached below. Prakriti MSIT has been visiting Animal Care Centres for a past few years, the experience acts as a learning experience for the team as it reminds them of the conditions of animals which are around us every day but go unnoticed. The team looks forward to conducting more such visits in the future.
