**eCell MSIT**

**ORIENTATION'23**

**Place: Auditorium, MSI(T)**

**13<sup>th</sup> September' 2023, 10am**

The E-Cell MSIT organized the official society orientation, for the esteemed freshers joining us from the year 2023-24, in the MSI(T) Auditorium and was attended by more than 500 freshers. The orientation is an annual event held by every society to persuade students from new and existing batches to become a part of the society and work towards their career and societal progress. Orientation is also a medium to declare vacancy of members in the society. The E-Cell's orientation provided students with enlightenment about college life at the very start of their academic tenures.

**Orientation Post: [Instagram](#)**

**Structure of the Program:**

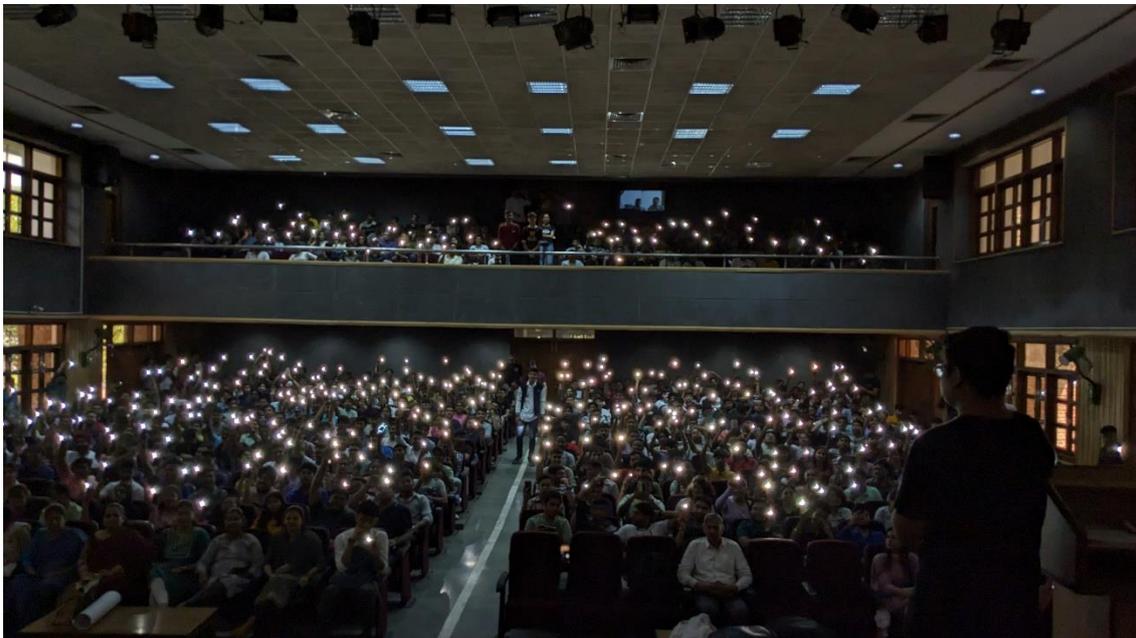

- The program commenced way before the arrival of the freshers in the auditorium. All the society members gathered at 8:30 am in the morning to start their preparations and drills to conduct the event with immense perfection.
- The setup was complete by 9:30 am and freshers were welcomed with a musical aura fuming out of the auditorium. At sharp 10 am, the program officially began. Freshers were seated in the auditorium and were welcomed to our orientation by our opening hosts, PR Deputy head (Arnav Gupta), and Manandeep Singh (a hardworking member).
- After the introductory speech and vote of welcome, our esteemed Convener, Dr. Neeru Rathee Ma'am, addressed the audience by congratulating them for being a part of the MSI(T) programs. Ma'am introduced the E-Cell Faculty and their roles to the audience. Then she further led the stage by drawing the attention towards the society and explained the potential role our Entrepreneurship Cell can play in their lives and how it has transformed lives of its past members. The role and scope of the Incubation department was also discussed in her speech.
- Then our President, Drishti Pandita, addressed the audience by enlightening them with the practical meaning, importance and examples of Entrepreneurial journeys. She then carried on to explain the benefits a societal participation provides to the students and how events like E-Summit can maximize their exposure to the corporate world. Further she introduced the E-Cell heads to build up familiarity for future interaction. She also discussed the annual

major E-Cell events like Pitch-N-Banter, Entrepreneurise, and the flagship events: E-Summit and Envisage.

- The stage was then handed over to the EVM (Harshika Drall) and Publicity Heads (Aman Dhingra) to explain the roles, importance and working of all the departments.
- To relax and brighten the mood of the audience and vibe of the room, our Advisor, Aryan Mehta, led the stage by chatting with the audience and further hosted the annual musical ritual where the audience participates by waving their mobile flashlights.
- Then the EVM department hosted a game: Grand Atlas, ending with the maximum participation and enjoyment. Students had won Amazon Vouchers and CodingNinjas goodies as prizes.
- The event was then concluded with Neeru Ma'am generously expressing a final vote of thanks after having introduced and explained the role of E-Cell Faculty.

### **Attendee Table:**

<b>S.No.</b>	<b>People/Groups</b>	<b>Number</b>
1.	The E-Cell Team	20+
2.	Freshers	500+
3.	Faculty Members	7-10

### **Conclusion:**

Throughout the orientation, the auditorium was overcrowded by both capacity and joyfulness. An orientation is the most critical part of a society's reputation and potential scope of expansion which, if done correctly, can lead to unimaginable achievements during the tenure. E-Cell MSIT realized this feature and performed outstandingly to make this a great success and the result was better than the best. We would like to express our sincere gratitude to our MSIT Board, our Convener, and all the stakeholders along with the society members for their contribution towards this event.

The society now looks forward to serving as per the bar set!
