

आRAMBH – Dramatic Society of MSIT

आRAMBH- दौरेकनईसोचका

Beginning their journey in year 2016, in an environment where societies and clubs promote coding culture and manufactured engineers it was felt that there is something needed to cater to the co-curricular and recreational needs of the students where they not just enjoy but also open up to new thoughts, environment and connect. And with this thought began an era of new ideology -आTrambh, The Dramatics society of MSIT.

आTrambh brings together actors, dancers, writers, singers and even musicians to present a yearly production of self-written plays and nukkad nataks. Through our plays we hope to create awareness among college students as well as the public about social causes in an interactive and entertaining manner. Everyone has got some hidden talents, they just need the right mentoring to carve that out. With all the members helping each other to not just give in the best but be a shade better than the last performance we have been each others support system. Everyone here is an inevitable pillar of आTrambh whose efforts have and will lead the family to new heights.

The practice sessions held in the college bank ground and at times the District Park has bought the team fame as one of the most preferred society of MSIT.

Certainly hard work never goes in vain. Added to this our family has been a part of ample prestigious competitions and fests. In year 2019 we were selected to perform in a cluster of villages under the scheme Unnat Bharat Abhiyaan. Our team's efforts were not only appreciated by the teachers but had an overwhelming response from the villages where we gave our performances and left the people spellbound.

With your endless support and love we hope to expand our family and enlighten people.
