

ASTITVA – Dance Society of MSIT

Dance is an expression, a feeling, a passion. Astitva, dance society of MSIT keeps the instinct of dance real and does not just restrict to any particular dance form. We believe that a harmony of multiple forms brings out the best and hence we portray through Kathak, Odissi, Bollywood, Bhangra and many more. This society is a beautiful amalgamation of students who share a common desire to dance along with engineering.

The society is part of mutants the cultural society of MSIT and its main aim is to provide platform to students who are or are not trained in dance and also focuses on building a team that has good knowledge of all popular dance forms of INDIA

Astitva works in an unorthodox way to perform.the orthodox dance forms.

The journey of ASTITVA has been really challenging and full of hardwork but the team stood up each obstacle and performed well in various competition including the university fest. Being the winner in the prelims and then performing well in the finals at the University fest ASTITVA proved its existence and strength. ASTITVA. Whole heartedly welcome students loving different dance forms from MSIT.
