

A Report on Invited Talk on VLSI and Embedded Systems by ST Microelectronics experts

An expert talk was conducted by ECE department of MSIT on 11th December 2023 in Seminar Room 206 from 11 am onwards, The talk was organized by Dr. Meena Rao, Associate Prof. and commenced at 11 am. The event featured industry stalwarts, Mr. Atul Bhargava and Mr. Alok Kumar Mittal, both from ST Microelectronics, who shared invaluable insights on key industry skills and ways for students to enhance their capabilities.

Mr. Atul Bhargava, Group Manager Design enablement Team and Senior Technical member from ST Microelectronics was the first key speaker and spoke on Emerging Trends in VLSI domain. He gave key information about VLSI chip manufacturing, latest requirements of VLSI industry, how faculty members can prepare the students and tips to become industry ready.

Mr. Alok Kumar, a Senior group Manager in ST Microelectronics, spoke about the latest work being carried out in Embedded industry, the areas in which faculty as well as students should focus on.

Both the experts also gave key take aways on internships and job opportunities in VLSI and Embedded domain and how the students can prepare and apply for them.

The Q&A session provided a platform for meaningful interaction, fostering connections between students and industry experts. The event, sponsored by ST Microelectronics, offered faculty as well as students a rare opportunity to gain knowledge and establish connections with distinguished professionals in the field.

Overall, the expert talk was a resounding success.
