Daksh Varshneya

Daksh Varshneya delved into Software Development topics, including Array String, Operating Algorithms (OA), Database Management Systems (DBMS), and Interview Question Puzzles. He shared tips on building a strong resume, showcasing relevant projects, and maintaining composure during interviews. Daksh's practical advice resonated with students aiming to enter the software development industry, offering actionable strategies for interview success and career growth.

Aakash Verma

Aakash Verma provided a comprehensive overview of learning resources, including NPTEL, LinkedIn Learning, and Udemy, highlighting their relevance in acquiring technical skills. He stressed the importance of DSA, Pen Testing, and Cybersecurity Frameworks in today's digital landscape, advocating for continuous learning through platforms like Coursera, IBM courses, and specialized programs like Malchom Shore courses. Aakash's insights on early engagement in Bug Bounty programs and professional development resonated with students interested in cyber security and related domain

The alumni interaction session was enriching, offering a diverse range of perspectives and actionable insights for students preparing for HR and technical interviews. The speakers' expertise in various domains, coupled with practical advice and real-world experiences, provided a holistic understanding of industry expectations and career pathways. Overall, the session served as a guiding light for students navigating the transition from academia to the professional world.
