A Report on

“Books and Their Utility for Public Sector”

A Talk on “Books and Their Utility for Public Sector” was organized by the National Digital Library of India (NDLI) MSIT and the Department of Electrical and Electronics Engineering on 26 April 2024. Prof. Meena Tushir, Head, of the Department of Electrical and Electronics Engineering, and Dr. Nidhi Gupta, Head, of the Library Committee MSIT scheduled the talk for 4th, 6th, and 8th-semester students of EEE. On 26 April, 2024, the Seminar Hall # 406 of MSIT buzzed with enthusiasm as students gathered to learn from an achiever, Ms. Saloni Vats, who is an illustrious alumna of our institution and achieved an outstanding All India Rank (AIR) of 129 in the UPSC exams.

Her talk emphasized the importance of literature and educational resources in shaping successful careers in the public sector. Drawing from her own experiences, she elaborated on the significance of reading diverse genres, staying updated with current affairs, and developing

critical thinking skills through literary exploration. Throughout her engaging presentation, Ms. Vats shared valuable recommendations and insights into books and study materials that have proven instrumental in her own UPSC preparation journey. The Q&A session proved to be enlightening and interactive, with Ms. Vats providing thoughtful responses and practical guidance to each query raised by the audience. Her candid insights and personal anecdotes resonated deeply with attendees, inspiring them to approach their UPSC preparations with renewed dedication and determination.

Overall, the talk was a success in providing valuable insights and practical advice for individuals looking to prepare for the public sector.
