

ORIENTATION 2024

The orientation program introduces newly admitted students to MSIT's numerous societies. Each group made its premiere during the early events, which featured performances by its core members in a variety of genres such as dance, music, and theater. Meeting peers with similar interests and gaining knowledge about the curriculum, syllabus, test framework, library, and other resources of the institute were among the opportunities offered to the students. It took place at MSIT Auditorium from September 2, 2024, to September 4, 2024. It started with an overview of the IIIC cell, led by Dr. Sudesh Pahal. The MSIT Innovative Institute Council (IIIC) notified the students that an innovative culture among the younger students will be fostered by the Indian government through the establishment of a cell in higher education institutes. The Yukti portal and the Smart India Hackathon were among the many platforms that were introduced. The following presentation was one that was comprehensive on the E-cell from Prof. Neeru Rathi, Head of the ECE Department. E-cell and Incubation cell were presented to the freshly admitted students. Prof. Neeru Rathee, the IEEE teacher in charge, educated the audience on the importance, uses, and real-world examples of entrepreneurial journeys.

The MSIT Cultural Orientation introduced students to the dynamic cultural societies of the campus, which were followed by E-cell. It gives new students a place to investigate and participate in a range of cultural events, promoting creativity and a sense of community on campus. Four major societies were on display at the event: the Astitva Dance Society, the Unity Street Dance Society, the Aarambh Drama Society, and the Octave Music Society. The audience was enthralled with the flawless fusion of genres and individual flair as the day came to a close with a burst of energy and inventiveness on stage. The E-yantra, led by Dr. Priyanka, and the Cerebrate, led by Dr. Jindagi Kumari, began the vibrant second day. Subsequent to a compelling presentation delivered by the Techsoc society, led by Dr. Nistha Jatana. Additionally, psychologist Ms. Preeti imparted education on mental health. She engaged in a beneficial discussion with the students. The IEEE society, led by Dr. Anupama Kaushik, gave a dynamic performance to round off the day.

The performance by the Microsoft Learn Student Ambassador Student Chapter (MLSA Student Chapter), under the dynamic leadership of Dr. Meena Rao, marked the beginning of another exciting day. One of the newly formed technical societies at Maharaja Surajmal Institute of Technology is called Geek Room, was

also introduced with the mission is to promote an innovative and creative culture inside the computer science department. Geek Room was founded in 2023 and gained popularity by mentoring inquisitive students in contests, projects, hackathons, and other technical fields. With over 15,000 tech enthusiasts connected across the city, Geek Room is one of the largest intercollegiate communities in Delhi-NCR and is elevating MSIT to new heights under the proficient direction of Dr. Rinki Diwedi.

Prof. Archana Baliyan, Director of MSIT, delivered a thought-provoking speech to the students. The students were thereafter given guidance for the future by Dr. H. S. Rawat, Director Placement, who additionally presented the previous year's placement record.

The head of UBA and Prakarti MSIT, gave an introduction to the organization's workforce members, as well as the activities and initiatives that they plan to raise awareness, create identities, and make better people's lives.

Anti-ragging slogans were engraved on the banners and exhibited throughout the duration of the orientation program. Students were educated to say no to Ragging.

Exciting and revitalising interactions with students and newcomers marked the end of each day's session. For all parties, the discussions were thought-provoking and new.
