5	Organized by	Ms. Nidhi Goel, Ms. Astha Solanki
6	Total Participants	99/130 (76%)

A workshop on Internet of Things (IOT) was successfully conducted at MSIT, Janakpuri on 4<sup>th</sup> April 2025. The event was organized by the Ms. Nidhi Goel and Ms. Astha Solanki for IT students with aim of enhancing their understanding of emerging technologies. The workshop aimed to enhance the knowledge and skills of participants by engaging them in discussions with experts in the field.

Mr. Jitesh Mathur, one of the greatest Business Development Manager with more than 10 years of experience, spoke about the importance of IOT in higher education. He showed some great practical applications on IOT using Tinkercad. He also made students practice some good projects which helped them in gaining practical knowledge. He delivered insightful presentations, followed by a Q&A session where students had the opportunity to clarify their doubts and interact with the experts.

The workshop witnessed an enthusiastic response from students and faculty members. Approximately **100** attendees participated in the event. The interactive format of the workshop encouraged active discussions and networking opportunities for students interested in IOT and quality enhancement.

The **workshop on IOT** proved to be an enlightening and engaging event. The attendees gained valuable insights and a deeper understanding of IOT and its role in improving academic standards. The event was a great success, and feedback from participants was overwhelmingly positive.
