

MAHARAJA SURJAMAL INSTITUTE OF TECHNOLOGY ELECTRONICS AND COMMUNICATION ENGINEERING DEPARTMENT

Seminar on “How to Crack the Case Study – Problem Solving and Decision Making”

Dated: 17th February 2026

The Department of Electronics and Communication Engineering at Maharaja Surajmal Institute of Technology organized a seminar titled “How to Crack the Case Study – Problem Solving and Decision Making” on 17th February 2026 in the Seminar Hall. The session was coordinated by Dr. Upma Singh, Assistant Professor, ECE Department, to enhance students’ analytical thinking and structured problem-solving abilities.

The seminar was delivered by Mr. Amit Poddar, a seasoned education professional and corporate leader with over 20 years of experience across the corporate and education sectors. During the session, he emphasized the importance of understanding case study frameworks, identifying root causes, evaluating alternative solutions, and making logical, data-driven decisions. He shared practical strategies for time management, structured analysis, and effective presentation of solutions in interviews and competitive examinations.

The interactive session included real-life examples and engaging discussions, enabling students to apply theoretical concepts to practical situations. The seminar significantly strengthened students’ critical thinking, confidence, and decision-making skills, preparing them for placements, management entrance exams, and professional challenges.
