

MAHARAJA SURJAMAL INSTITUTE OF TECHNOLOGY

ELECTRONICS AND COMMUNICATION ENGINEERING DEPARTMENT

Seminar on 'How to crack case study based GD/PI'

Dated: 20th Aug. 2026

The Department of Electronics and Communication Engineering (ECE), Maharaja Surajmal Institute of Technology, organized a seminar on “**How to Crack Case Study-Based GD/PI**” on 20th August 2026 in room no. 602. The session was coordinated by Dr. Upma Singh, Assistant Professor, ECE Department.

The keynote speaker was **Mr. Sunil Dua**, Senior Regional Head at T.I.M.E. and an alumnus of Hansraj College, Delhi University. With over 30 years of teaching experience, Mr. Dua specializes in Verbal, Reasoning, and soft skills training for GD, PI, and essay writing. A total of 48 ECE students attended the session.

Key Takeaways:

- Frameworks: Strategies for dissecting business caselets, separating symptoms from root causes, and structuring solutions.
- GD Navigation: Techniques for active listening, constructive debate, and leading teams to consensus.
- PI & Essay Skills: Aligning reasoning and communication to answer situational questions effectively.

The interactive session included real-time case exercises and mock feedback, significantly enhancing students' analytical, communication, and decision-making skills for upcoming campus recruitment drives.
